Everybody's Talking

Finding koalas Forest fires are very dangerous for wild animals, but in Australia, a border collie came to the rescue. The dog, named Bear, was trained by Detection Dogs for Conservation to find koalas that are hiding in the trees. Bear was chosen for the task because he is able to find the small mammals by their scent. When he locates a koala, he settles himself under the tree and waits for one of his human bosses to arrive. Then the humans figure out how to get the little animal down from its high perch.

Painter's message A house painter in Bolsover, Derbyshire, England, hadn't been paid for the work he'd done on a building, so he took matters into his own hands. On the front of the freshly painted, cream-coloured, two-story structure, Dean Reeves painted a message in black: "Want your house painting? Don't be like Terry. Pay the bill! Now you will!" According to Reeves, building owner Terry Turner had continually refused to pay all of the agreed upon amount until the painter completed extra tasks. When Reeves understood what the owner was doing, he decided to paint the message.

Up a pole Vernon Kruger must love heights and small places. Hailing from the town of Dullstroom, South Africa, he has lived in a 500-litre (132-US liquid gallon) barrel on top of a 25-metre (82-ft.) pole for many days at a time. And he's done it twice. The first time was in 1997, when he broke the previous record by staying in the barrel for 67 days. Recently, he broke his own record when he stayed there for 78 days. His stay wasn't easy. He had to sleep curled up and had to rely on others to send food and water up to him in a wicker basket. He used the stunt to raise money for charity.

Award winner Hibino Sekkei, an architectural firm in Japan, decided to bring nursery school children closer to nature through building design. Taku Hibino is the lead architect. His firm has gained a reputation for designing facilities for early childhood education. The renovation of YM Nursery, a school in Tottori prefecture, is a prime example. The design called for opening the school up to the sea and the forest through open spaces and sliding doors, which helps bring the outdoors inside. The firm won best in its category at the World Architecture Festival.

Did You Know...

Urban centres: The two most populous cities in Ecuador are Guayaquil, a port city, and Quito, the county's capital. Other large cities include Cuenca, Santo Domingo, and Machala.

Heed the sign: Muehrcke's lines are white bands that cross a fingernail horizontally. They don't move as the nail grows. These lines may be a sign that the body is low on a protein called albumin.

Great source: The work of science-fiction author Philip K. Dick was the source material for a number of American blockbuster movies. They include *Blade Runner* in 1982, *Total Recall* in 1990, and *Minority Report* in 2002.

Eye colour: Estimates of the percentage of people with brown eyes range from 55 to 90, making brown the most common eye colour. Only about 8 to 10% of people have blue eyes. Even fewer, 2%, have green eyes.

Fruit or vegetable? Watermelon is designated as both a fruit and a vegetable. It's a fruit because it grows from seeds, and a vegetable because it belongs to the same vegetable family as cucumber, pumpkin and squash.

On the Lighter Side

What if dogs fetch the ball back only because they think you really like throwing it?

Boss: "Wake up! If you want to snooze, why don't you leave work and go home?"
Employee: "Oh no. I can't get paid to sleep there."

What is it called when a snowman has a temper tantrum?
A meltdown!

Can a kangaroo jump higher than the Empire State Building?
Of course. The Empire State Building can't jump.

A guest calls the waiter and complains, "How come there are no chairs at our table?!"
The waiter shrugs, "I'm sorry but you only booked one table."
