**Everybody's Talking**

**Lonely house** An interesting place in Iceland is called the Þrúdrangaviti Lighthouse. With a name that means "three rock pillars," it was built in 1939 on top of a slim rock outcrop that sits six miles off the country's southern coast, near the Westman Islands. The red-roofed lighthouse is on the largest of four such rock pillars protruding from the sea. To build it, construction workers first had to build a road to the cliff, and then had to climb to the top of the cliff with the materials. Today, maintenance workers get there via helicopter. No one lives in this lighthouse, as it is so remote and isolated.

**Vulture madness** It's not uncommon to hear about cases in which pigeons, crows, or gulls take over a place in large numbers, but vultures? That's what happened in a neighbourhood in West Palm Beach, Florida (U.S.). Apparently, someone started feeding the vultures, an act that served to attract other vultures to come to the free buffet. Unfortunately, a committee of vultures makes quite a mess, and homeowners ended up with pecked vehicles, torn screens, and invaded swimming pools. Even fake owls and loud music have failed to scare the birds away.

**Blue-eyed sisters** A couple from Reading, England, own two "American Type" Russian Blue cats. Named Xafi and Auri, this pair of sisters has attracted a lot of attention on social media because of their interesting blue-green eyes. The feline breed is quite gentle and intelligent, and these two love to pose for the camera. Their owners say that Xafi and Auri get along really well, loving to cuddle with each other. To get photos, the owners use treats and toys, but say the best pictures emerge when the cats are just being themselves and are acting naturally.

**Alpine adventure** With the Matterhorn in full view, the mountain town of Zermatt is a scenic place to visit in Switzerland. In the winter, it is known for its great skiing and other snow sports, such as skating and curling. In other seasons, mountain biking, rock climbing, and hiking on mountain trails keep adventurous people busy. Those who aren't athletic can go on the Matterhorn glacier ride, a cable car ride that offers views of the glacier landscape. After the day's activities, a visitor can dine at one of the many top-class restaurants that line the streets of the town.

**Quoteable Quotes**

"Oh world, I cannot hold thee close enough." —Edna St. Vincent Millay  
"It takes little talent so see clearly what lies under one's nose, a good deal of it to know in which direction to point that organ." —W.H. Auden

## Recipe of the month

### Easy Cheesy Potato Fans

4 large Yukon gold potatoes (2 lb./900 g) | 1 cup shredded mozzarella cheddar cheese  
1/4 cup creamy caesar dressing | 1 green onion, sliced

Level: Easy | Total Time: 25 mins | Yield: 4 servings, 1 potato each

- Heat oven to 400°F.
- Place potatoes on microwaveable plate; prick each in several places. Microwave on HIGH 10 to 12 min. or until tender, turning and rearranging every 3 min. Cool 10 min.
- Make 7 to 9 diagonal cuts in top of each potato, cutting about 3/4 of the way into potato. Place on baking sheet sprayed with cooking spray. Gently spread slices of each potato slightly apart; brush with 1 Tbsp. dressing.
- Bake 15 to 18 min. or until potatoes are lightly browned. Top with cheese; bake 1 to 2 min. or until melted. Sprinkle with onions.

*How to easily cut potatoes into fans:* Place potato on wood spoon; cut crosswise into thin slices. The spoon will keep your knife from slicing all the way through. Don't cut more than 3/4 of the way down – the slices should still hold together at the potato's base.
