Lucky numbers this week: This week's odds favour Virgo winners with the luckiest number being 6.

Did You Know...

Preventing sunburn: The rhinoceros is the second largest land animal, next to the elephant. Living in Africa and Asia, these beasts can get sunburn on their thick skin. That's why they like rolling in the mud.

Cuts and scrapes: People often call adhesive bandages "Band-Aids." That term is actually a brand name for the first adhesive wound covering, which was invented in 1920 by Earle Dickson of Johnson and Johnson Company.

The Force displayed: Steve Sansweet is known for his collection of Star Wars memorabilia. He has amassed thousands of items, which are on display at the Rancho Obi-Wan museum in Petaluma, California (U.S.).

Animal cross: A beefalo is a cross between a cow and a buffalo (also known as bison). Specifically, a beefalo is 37.5% bison. The meat of this animal is touted to have less cholesterol and fat than conventional beef.

Strong winds: A cyclone is a strong, spiraling storm that can be destructive. Winds rotate around a midpoint of low pressure. North of the Equator, they spiral counterclockwise, and they spiral clockwise if south of the Equator.

On the Lighter Side

Guest: "When I made this reservation, I specifically requested a room facing the ocean."
Desk clerk: "Well, you didn't specify which ocean."

There are only three kinds of humans: those that count, and those that can't.

Blessed are they who can laugh at themselves for they shall never cease to be amused.

Consultant: someone who gets \$100 an hour to tell you the same thing your assistant told you last week.

I have a baby car. It goes everywhere with a rattle.
