Vol. 17 No. 50 December 14, 2020

Everybody's Talking

More than cherry soda: When people grab a soda, the roster of flavours usually includes such things as cola, strawberry soda, ginger ale, and limeade. Now, a soft drink company based in Shizuoka Prefecture, Japan, may have won the competition for the weirdest soda flavours. The company, called Kimura Beverage, has produced sodas with flavours that include pickled plums, curry, melon bread, and eel. Developing the flavours is no small undertaking, as it can take up to a year to get it just right.

Plastic plant: A woman from California (U.S.) recently had a big surprise. Caelie Wilkes loves plants. She had a succulent that she carefully looked after for two years, watering it on a schedule. Its beautiful green leaves always seemed healthy. One day, Wilkes decided to transplant her pride and joy into a bigger pot. Imagine her shock when she discovered that the succulent was fake; it had no roots and was glued onto a piece of Styrofoam that was covered with dirt. Luckily, Wilkes has a sense of humour. She posted her story, which garnered lots of funny and sympathetic comments.

Snail power: When thinking about pets, most people conjure up images of cats, dogs, bunny rabbits, parrots, and maybe even pot-bellied pigs. But snails? That is the choice of Pepper Apollo, a woman from the United Kingdom who cares for approximately 150 of the creatures. She started collecting them a few years ago when she found some near her workplace. Today, she keeps her large collection of tiny pets in tiered terrariums where they live a luxurious, well-fed life. Apollo genuinely feels that each one of her little charges has its own personality.

Animal sanctuary: A couple in India love wildlife. In 1998, wildlife photographer Aditya Singh and his artist wife, Poonam Singh, started purchasing farmland near the Ranthambore Tiger Reserve in Rajasthan, northern India. Farmers happily sold their land because the big cats on the reserve threatened farmers' livelihoods. The couple has allowed the forest to regrow on the land, and today it is a lush home for tigers, leopards, wild boars, and other animals. The Singhs even dug watering holes for the animals. Now that these predators have the food and water they need, they are not as much of a threat to farmers.
