**Everybody's Talking**  
**Melon mania:** Carving pumpkins at Halloween might be a normal thing to do, but carving watermelons to use as bandit masks is quite another. That's what two thieves in Louisa, Virginia (U.S.), did to cover up their identities when they robbed a convenience store. They arrived at the business in a stolen vehicle, then strolled in, looking through carved-out "eyes" in the melons they wore on their heads. Police managed to find one of the culprits, and they are still searching for the other one.

**Colour change:** Blaze, a Labrador retriever from Finland, suddenly changed from black to white, and his owner couldn't figure out why. She wondered why a small patch of fur on her pet's ear suddenly turned white. Then, over the course of a year, much of Blaze's fur changed from black to white. It turns out that Blaze has vitiligo, a condition that causes the pigment in fur to lose its colour. Blaze doesn't seem to care. He is a loving, healthy dog that likes to play and go for walks. Thanks to his owner's posts, he has become a social media sensation.

**Bedsheet shirts:** Two clothing designers from Archivist Studio in Berlin, Germany, found a unique way to reuse material that would have gone to the dump. Eugenie Haitzma and Johannes Offerhaus offered to take expensive hotel bedsheets that were headed for the garbage bin, due to minor flaws and tears. The designers realized that the Egyptian linen would be perfect for shirts, and the hotels were happy to get rid of it. With so much quality material to work with, the entrepreneurs soon came up with some styles, and they intend to add more to their portfolio in the future.

**Brave stance:** Elephants may be quite a lot larger than crowned cranes, but that didn't stop one of the birds from aggressively protecting its nest against a herd of the giant grazing mammals. The crane's bravery was caught on camera in Kenya's Maasai Mara National Reserve. As the elephant approached, the crane spread its colourful wings and squawked loudly while moving towards the mammal in a menacing manner. The adult moved away, and then the crane started badgering a baby elephant, which didn't go over well with the adult. All was well in the end, as the elephants wandered off.

**Wee birdie:** The tiniest bird on the planet is the Bee Hummingbird. This species lives in Cuba and lays eggs the size of coffee beans. It is so small that it might be mistaken for a bee when it is hovering around flowers to collect nectar.

**Soundscape:** The Sagano Bamboo Forest in Kyoto, Japan, is a magical place. The rustling and creaking of the thousands of tall bamboo stalks is so meditative that the country has deemed it a "soundscape."

**Surf 'n turf:** People who live on the west coast of the United States are likely familiar with a regional dish called the Hangtown Fry. It combines bacon, fried oysters, and eggs, resulting in a salty, chewy mixture.

**Amazing wave:** Wave Rock is a rock formation in Western Australia. Part of a larger formation called Hyden Rock, it looks like a 15-metre (50-ft.) tidal wave, but is really comprised of layers of stone.
