## Everybody's Talking

**See you soon:** When prison inmates make an escape, they usually hope not to return. This was not the case for two incarcerated men in an Italian prison. Cousins Davad Zukanovic and Lil Ahmetovic managed break out of jail in the middle of the night. They left a note explaining that they had urgent family business to attend to, adding a dubious promise that they'd be back in 15 days. Regardless of the convicts' stated intentions, police took the escape seriously and are doing their best to track the men down. If they get caught, authorities will add five years to their sentences.

**Snow art:** British Artist Simon Beck uses a unique medium for his work: snow. He creates geometric patterns on large stretches of the untouched white stuff by walking on it in a systematic way. His snowshoe footprints make the design, which he plans beforehand on paper. Many of his works were made in the Alps, but he has traveled to other snowy places to make a piece. The images take many hours to create and can cover an area the size of a football field. A high vantage point is the best way to see his snowflakes, checkerboards, and other intricate shapes.

**Team spirit:** One traditional sport that came from the Zhuang people of Gunaxi province in southeastern China requires immense teamwork. It's called board shoe racing. In this sport, three team members place the toes of their shoes in leather straps attached to two planks that each are one metre (3.2 ft.) long. To race, they must run in perfect unison to avoid falling over. While board shoe racing requires athleticism, an important requirement of the team is working together and cooperating with each other. The sport likely dates back to the Ming Dynasty, when it was used to help train soldiers.

**Lighting the way:** Tobermory, Ontario (Canada), is situated near dangerous waters. Located at the merger of Lake Huron and Georgian Bay, the waters sometimes are treacherous, and the weather can be bad. To guide ships into the harbour, the Big Tub Lighthouse was built in 1885 for \$675 CDN. Today, the original structure no longer exists, and in its place is a six-sided wooden lighthouse that stands 14 metres (43 ft.) high. Its existence is necessary, especially considering that two old shipwrecks can be seen in the offshore waters. Today, scuba divers enjoy exploring them.

## Did You Know...

**Sea in an ocean:** The Sargasso Sea in the Atlantic Ocean does not have a coast because its boundaries are defined by four ocean currents. Floating seaweed called sargassum covers it.

**Good bugs:** Ladybugs are welcome additions to farmers' fields and gardeners' backyards. That's because they love to eat pests, such as aphids, that cause damage to crops and flowers.

**Shorter journey:** The Panama Canal lets ocean traffic move between the Atlantic and Pacific Oceans without having to go around the southern tip of South America, saving almost 13,000 kilometres (8,000 mi.) of travel.

**American artist:** Georgia O'Keeffe (1887-1986) was an American modernist artist. She is known for such works as "Sky Above Clouds IV" and "City Night." She spent quite a bit of her time in the state of New Mexico, where she fell in love with the landscape.

**Ten stripes:** The Charentais melon comes from Cavaillon in the southern part of France. That town has an annual festival celebrating the sweet, citrus cantaloupe that, when ripe, has exactly 10 green stripes on its husk.

## On the Lighter Side

What three things can you give away, but still keep? A smile, your word, and your heart.

Every dog may have his day, but it's the puppies that have weak ends.

Why do banks leave both doors open and then chain the pens to the counters?

Mom: "Why didn't you come when I called you, didn't you hear me?"

Tommy: "Not the first two times."

If you hold out for a gift tied up with a bow, you might miss the present right in front of you.
