Everybody's Talking

Odd shape: Square watermelons actually exist in Japan, but they don't come from special seeds. They are created when a watermelon of the usual variety is grown inside a box so that the final product is square. Watermelons of this shape have the advantage of being stackable, so therefore are more easily transported and stored. The taste of these watermelons isn't like regular ones because they're harvested before they become mature. People buy them as ornamental gifts, parting with as much as \$100 USD if purchasing from a Japanese store, and for much more from specialty stores in other countries.

A place for books: There is a library like no other in Stockholm, Sweden. Stadsbiblioteket (City Library) was designed by architect Gunnar Asplund in the 1920s. Its round shape is unusual, with stacks of books encircling the huge room. Above the stacks is a viewing area, allowing visitors to take a bird's-eye look at the hundreds of thousands of books available for reading and loaning. The architectural style is known as Nordic Classicism; some people call it "Swedish Grace." Both inside and out, the building is a photographer's dream, not to mention a reader's fantasy.

Wild winds: On New Zealand's South Island is a windswept area called Slope Point. This forbidding place on the island's most southern tip, almost midway between the Equator and the South Pole, experiences relentless, howling winds that come across the ocean, uninterrupted, from Antarctica. Sheep graze there, and years ago farmers decided to plant trees to act as shelters for the animals. Today, those trees are a tourist attraction because the wind has forced them to grow sideways - literally. While people like to come to see the trees, they must make day trips because there are no accommodations on this wild, windy point.

Sink art: An artist in Milan, Spain, didn't let the coronavirus pandemic get in her way. During the shutdown in that country, Marta Grossi used an everyday home feature as her canvas: the sink. Normally used for the drab tasks of doing dishes and personal care regimes, Grossi decided to breathe creative life into the basins by using watercolour paints. From sea anemones to butterflies to floral designs and animal life, she created bright, colourful scenes. She left each painting intact for 24 hours, but took photos before washing each design down the drain.

What's In Your Glass? with R&R

A Toast to the Irish

Did I mention that we're big fans of whiskey from the emerald isle? Just a smidgen (wink, wink). Irish Whiskey has been steadily rising in popularity over the past half a dozen years or so. We actually get a bit giggly when new ones come on stream.

Another spirit that has been gaining in status is gin. You can, in part, thank the TV series *Downton Abbey* for this resurgence. So why are we talking about gin for St. Patrick's Day? Irish gin is a thing, to be sure. Since the late 18th century, truth be told.

We'll leave spirits history for another day. St. Patrick's Day is about fun. So we decided to end off with a limerick. Sláinte.

We raise a glass to St. Patrick's Day / A toast to health and happiness come what may / Come fill your glass, Let's not give it a pass / Sure it'll bring a smile without delay

Did You Know...

Underground spectacle: The state of Kentucky (U.S.) is home to Mammoth Cave, a cave system that spans more than 400 miles (644 km). Cave explorers can visit some of these caverns at Mammoth Cave National Park.

Too hot: A restaurant in Jakarta, Indonesia, is rumoured to serve up the spiciest noodle dish ever. Called *Mie Goreng Pedas Mampus*, or "Death Noodles," the dish uses common packaged noodles, but serves them with a sauce made from as many as 150 bird's eye chilies.

Snowy occurrence: When gusts of wind pick up dry snow, a snow devil may occur. Although rare, they can happen when cold air moves over a warm surface, causing an updraft that can rotate, bringing with it swirls of snow.

Straddling two continents: A few cities in the world are located in two continents. For example, Suez is in Africa and Asia, Panama City is in North and South America, and Istanbul is in Europe and Asia.

Personal tree space: In some forests, there is a phenomenon called "crown shyness." This happens when the upper branches of trees don't touch their neighbours, so there are gaps in the canopy when looking upwards.

On the Lighter Side

Why don't oysters give to charity? Because they're shellfish.

Middle age: When the narrow waist and the broad mind begin to change places.

Opportunity may knock only once, but temptation bangs on the door forever!

If you see an ocean but not water, where are you? In front of a map.

How is a hospital gown like insurance? You're never covered as much as you think you are.

Recipe of the month

Cheesy Broccoli Soup in a Bread Bowl

1/4 cup butter, cubed
1/2 cup chopped onion
2 garlic cloves, minced
4 cups fresh broccoli florets (about 8 ounces)
1 large carrot, finely chopped
3 cups chicken stock
2 cups half-and-half cream
2 bay leaves
1/2 teaspoon salt
1/4 teaspoon ground nutmeg

1/4 teaspoon pepper
1/4 cup cornstarch
1/4 cup water or additional chicken stock
2-1/2 cups shredded cheddar cheese (about 8 ounces each), optional
Optional toppings: Crumbled cooked bacon, additional shredded cheddar cheese, ground nutmeg and pepper

Prep Time: 15 mins. Cook time: 30 mins. Yield: 6 servings

- 1 In a 6-qt. stockpot, heat butter over medium heat; sauté onion and garlic until tender, 6-8 minutes. Stir in broccoli, carrot, stock, cream and seasonings; bring to a boil. Simmer, uncovered, until vegetables are tender, 10-12 minutes.
- 2 Mix cornstarch and water until smooth; stir into soup. Bring to a boil, stirring occasionally; cook and stir until thickened, 1-2 minutes. Remove bay leaves. Stir in cheese until melted.
- 3 If using bread bowls, cut a slice off the top of each bread loaf; hollow out bottoms, leaving 1/4-in.-thick shells (save removed bread for another use). Fill with soup just before serving.
- 4 If desired, serve soup with toppings.
