Everybody's Talking

Raining chocolate: People might use the expression, "It's raining cats and dogs," but no one ever says, "It's raining chocolate!" That's what happened in the town of Olten, Switzerland, recently. Many people reported seeing chocolate powder in the air, and others mentioned that vehicles were covered with an accumulation of the sweet, brown stuff. Turns out that there was a logical reason for the phenomena. The town is home to a chocolate factory that had a problem with its ventilation system. The chocolate powder made its way outside and was blown around by strong winds.

Working the land: Apartment dwellers in cities expect to look out their windows to see such things as parking lots, malls, stores, and gas stations. At one apartment complex in Lublin, Poland, the view is a little different. At harvest time, the buildings' occupants can look out and see a farmer in a combine harvesting the crop. While other farmers in the area sold their land to urban developers, this one decided to keep his property so he could keep farming. Most people living in the nearby buildings don't seem to mind at all; they like seeing agriculture in action, rather than asphalt and urban sprawl.

Artsy hairstyle: Clients who get haircuts from stylist Truong Xuan Tuan wish their hair would never grow again! That's because the stylist, of Hanoi, Vietnam, creates works of art on the backs of people's heads using razors and trimmers. He might trim hair to form a celebrity's face, a cartoon character, a spider, or an urban scene. Because he cannot simply rub out any mistakes, he only creates designs that he has practiced making in the past. Those coming into his shop can browse through a portfolio and pick something they like. Warning: the designs become a bit fuzzy as the person's hair grows back!

Manhole lights: City planners in Tokorozawa, Japan, have a novel idea to decorate manhole covers. They outfitted 27 of these necessary, but usually unattractive, pieces of the city's infrastructure with solar-powered LED lights. The lights reveal designs that incorporate anime characters, which are popular in Japan. The 27 artistic designs are illuminated every evening at 5 p.m., and those who are out late can enjoy them until they go off at 2 a.m. Another motive that inspired the city's planners is that the extra lighting may help to prevent nighttime crime.

Did You Know...

Powerful quote: Sir Francis Bacon is famous for first using the phrase "knowledge is power," in 1597. He was an English philosopher, statesman, and essayist, and known for ardently supporting the scientific revolution.

Transparent car: For the 1939 World's Fair, General Motors built the Pontiac Ghost Car, billed as the first transparent car. Created in partnership with Rohm and Hass, which invented plexiglass, the Ghost Car offered a clear view of the vehicle's engine.

Big bill: A shoebill is a large bird with stalk-like legs and a huge bill that resembles a shoe. These birds live in parts of East Africa, usually close to where they can find fish and other small prey, such as frogs and snails.

Old gum: When enjoying your next stick of gum, here is something to think about. The oldest chewing gum ever found dates back 5,000 years! It was found in a lump of bark tar that showed well-defined tooth prints.

Take a swing: It's generally agreed that the game of golf originated in Scotland during the 15th century. But there's also evidence that the Scots' game was inspired by stick-and-ball games played at the time in France, Germany, and the Low Countries.

On the Lighter Side

Teacher: "I hope I didn't see you looking at Fred's test paper."
Student: "I hope you didn't see me either."

Stop playing at being so serious and start playing seriously.

If it's zero degrees outside today, and it's supposed to be twice as cold tomorrow, how cold it is going to be?

Genius may have its limitations, but stupidity is not thus handicapped.

What did the two strings do in the race? They tied.
