Everybody's Talking

Tough love: A woman's urge to be motherly has its limits for one matriarch in Mexico. The mother of Christian Uriel, a full-grown adult over the age 30, was happy to let her son come home to live free-of-charge when he lost his job due to the COVID-19 epidemic. However, months later, after Uriel had done little in the house except play video games, his mom had had enough. With the help of her sister, she ordered him out. The two women threw water on him and threatened him with brooms. Uriel filed a complaint to the authorities, but whose side they will take on the matter is unknown.

Tattooed teacher: A schoolteacher in Essonne, France, may lose his job, but not because of a lack of teaching ability. Actually, Sylvian Helaine is very good at his job. The problem is that he has tattoos from head to toe, including on his face, and his superiors at his school have received complaints from parents. Apparently, some kindergarten children are afraid of him. In response, Helaine was moved from the kindergarten room to a class with older children. Known as Freaky Hoody on social media, he has a passion for getting tattoos, which he adamantly claims have no bearing on his ability to teach.

Smelly fish: There is a fish dish in South Korea that most people hate, but lovers of the delicacy can't get enough of it. The dish is called hongoe (or hongoe-hoe) and it is well-known in Korea. The fish used is naturally fermented skate, a bottom-dwelling species. Its smell resembles ammonia. The odor even permeates clothing, so some restaurants offer sealed bags to store guests' jackets during the meal. First-time eaters are coached to breathe in through their mouths and out through their noses when eating it. After a few times, some get hooked on this dish.

Canine protection: Unbeknownst to his parents, a little boy from St. Louis, Missouri (U.S.), wandered away from home one morning. In bare feet and wearing only his pyjamas, Kh'amorion Taylor quickly became lost. However, a stray dog came to his rescue, staying by him as he toddled through unfamiliar streets. An anonymous woman noticed the duo, and started knocking on doors to see if anyone knew the boy. Eventually, after seeing a post on social media, the boy's father was alerted, and a joyful reunion resulted. The story shows how protective a dog can be towards a human who is in trouble.

Did You Know...

Early single: Famous British musician Elton John was once in a band called Bluesology. A song he wrote while with that band, "Come Back Baby," was released as a single in 1965.

Licking wounds: A person's saliva does a lot more than just lubricate the mouth and help start the food digestion process. It also contains antimicrobial compounds that help prevent infections in the mouth and gums.

Tall trees: Japan is home to forests of Kitaymama cedar, a tree that grows straight and tall. Foresters prune the lower branches so the trunk will grow exceptionally straight. The timber is used for wooden roofs and beams.

Sewing skills: A small bird that lives in the tropics of Asia has a unique way of making its nest. The female common tailorbird (*Orthotomus sutorius*) punches holes in leaves with its beak, then "sews" them together using cobwebs and plant fibres.

Famous place: The Cliff House is a famous restaurant in San Francisco, California (U.S.). Located on cliffs with a view of the Pacific Ocean, it was first built in the 1860s. There have been several rebuilds and renovations over the years.

On the Lighter Side

How do you know carrots are good for your eyes? Because you never see rabbits wearing glasses.

Scientists recently located the gene for military aptitude. They would have found it earlier, but it was camouflaged.

Boss: "You've got to find a way to make fewer mistakes on the job."
Worker: "OK. How about if I come in later in the morning?"

What's the difference between an African elephant and an Indian elephant? About 3,000 miles.

We're not supposed to be perfect. If we were, pencils wouldn't have erasers.
