**Alberta Has It All**

"Flatlands and rollin' plains, clear blue skies, prairie rains; a tapestry of colours in the fall. Snow covered mountain tops, wheat fields, canola crops; Alberta has it all." This is from our Alberta provincial anthem. That's just a smidge of it, because if we wrote the whole thing, well, you would miss our monthly wit and wisdom. Okay, maybe just our wit (haha).

There's no part in the anthem about our liquid assets. We mean of the alcohol type, of course. We make some wicked products in Alberta.

Beer... lots of fabulous beer of every size and type. We're in the spirit of things too with vodka, gin, whisky. Liqueurs, too. How about mead, coolers, fruit wines and pre-mixed cocktails... Albertans make those, too.

Come on everybody. Let's celebrate Alberta made products. We've got a ton to salute. Cheers!

**Everybody's Talking**

**Hungry owls:** No one wants to use chemical pesticides to protect crops, and apple farmers in Japan don't have to. That's because a natural predator is available to help keep their orchards free of field voles. That predator is the Ural owl (*Strix uralensis*). These birds build nests in the hollows of trees near the orchards, and farmers even supply manmade structures to attract them. The night hunters do swift work of nabbing voles, which can do considerable damage to apple trees and cut into the profits of the farm.

**Inked all over:** Some people get a tattoo (or two) somewhere on their bodies, but Kerstin Tristan decided to get her whole body tattooed. The grandmother from Leipzig, Germany, started on her tattoo odyssey in 2015 when she got her first one. Now, her arms, legs, torso, hands, and feet are almost completely covered. The tattoos range from flowers to butterflies to women's faces to leopard spots to strings of pearls. Tristan has spent, so far, about 30,000 Euro on her body art, and she doesn't regret it. She intends to keep filling the blank spots with more tattoos.

**Mural mandate:** A mural on the side of a building in Warsaw, Poland, helps clear the air of pollutants. Located near a busy metro station, the mural is made of special photocatalytic paint that lures pollutants from the air. The pollutants are then changed into harmless particles, which are washed away when it rains. The mural features flowers with smiling faces, with the foliage wrapped around tall buildings. The project was part of the City Forests campaign. Several other cities around the world are part of the movement, including Bogotá, Columbia; Johannesburg, South Africa; and Melbourne, Australia.

**Cat lady:** A woman who lives in Muscat, Oman, is a true animal lover. In fact, she loves animals so much that her home has become a shelter for homeless cats and dogs. Maryam al-Balushi didn't always appreciate animals. Her affection for felines began in 2008 when her son brought home a Persian cat, which she grew to adore. She started taking pity on strays, and today she has nearly 500 cats and about a dozen dogs. It costs almost \$8,000 per month for food and vet care, which at first she paid herself, but now donors help her with the bills. She hopes everyone will understand that animals need to be treated with compassion.

## Did You Know...

**Famous relative:** The famous F. Scott Fitzgerald was named after his distant relative, who may be even more famous. Francis Scott Key wrote the words to "The Star-Spangled Banner," America's national anthem.

**Landlocked:** The Lao People's Democratic Republic, known as Laos, is landlocked and shares borders with China, Vietnam, Cambodia, Thailand, and Burma (Myanmar). The capital of Laos is Vientiane, and the country's official language is Lao.

**Cold lovers:** Yakutian horses live in Yakutia (Sakha) Republic, in the Siberian region of Russia, where temperatures in the winter can dip to -70°C (-94°F). These small horses are heavy for their size because they have a layer of fat, as well as a thick mane, to keep them warm.

**Unique design:** For a unique, personalized cooking and eating space, people may choose to have a "bespoke" kitchen. That means that the area is custom designed for the owner's exact preferences.

**Runny nose:** Having a runny nose is a common consequence of eating spicy foods. That's because the chili peppers in spicy dishes contain the chemical capsaicin, which is a natural decongestant.
