**Everybody's Talking**  
**Heart-shaped lakes:** In an oasis called Al Qudra, near the city of Dubai, United Arab Emirates, is a manmade attraction called Love Lake. As seen from the air, Love Lake beckons visitors to its two heart-shaped lakes that intertwine. Desert surrounds the lake on all sides. However, within the Love Lake park area, visitors find lush vegetation, including trees and flowers. Not far from the bustling city, couples and families can enjoy a day trip for a barbecue, a cycle, and a beautiful sunset. Almost everything in the park is shaped like a heart, including signposts, a badminton court, and flowerbeds.  
**Food art:** While many artists use paint to create their works of art, a talented young woman from Egypt uses edible ingredients for her drawings and illustrations. Sally Magdy Murad expresses her creative spirit using such materials as honey, chocolate, jam, juice, and syrup. Her tools are also unique and include spoons and toothpicks. As she has practiced her art, she has added other mediums, such as raisins, salt, and candy. The experienced artist started with this "food-paint" in simple works, but eventually her drawings became more sophisticated and now include Arab personalities. Murad's art is especially interesting because it can be eaten after it's created  
**Pizza problem:** When ordering a restaurant meal from a delivery service, customers expect their food to be handled with care. That's what a man from Detroit, Michigan (U.S.), believed, until his doorbell camera revealed something different. He and his wife ordered a pizza one day, but didn't end up eating it. That's because they saw, on their doorbell camera, the pizza falling out of the box on their front porch. The delivery driver picked it up, brushed it off, and left it on the doorstep. The couple complained and got a refund, and the driver was fired. But they didn't blame the delivery service for the problem, realizing it wasn't their fault.  
**Doll delirium:** Shirley Sumaiser of Toronto, Ontario (Canada), has a dollhouse that doesn't have windows, doors, and rooms in which children can play with their dolls. Called "The Doll House," her home is on a quiet street not far from downtown. Her yard, fence, porch, and eaves are full of dolls of every variety, and more! The woman collects not just dolls, but stuffed and plastic toys of all kinds. People taking a stroll along her street will find everything from troll dolls to Santa Clauses to Disney characters packed on the lawn. Sumaiser gets much joy from decorating the front yard of her two-story house, and she changes the decorations with every season.

## Did You Know...

**Coconut goodness:** Coconut confections called *cocadas* are common in places like Mexico, Peru, Colombia, and others. The cookie-like dessert has many variations, but sugar, water, and, of course, coconut are key. Chefs might also add vanilla or almond extract.

**No buzz:** Those who want a mosquito-free vacation, winter or summer, can go to Iceland, where these pesky insects do not exist. This northern nation also does not have any snakes and has very few species of spiders.

**Blue bloods:** An octopus's blood is blue. That's because it is not iron-based, like a human's, but copper-based. Containing a protein called hemocyanin, this type of blood can better transport oxygen in the octopus, especially in the cold, deep waters where they live.

**Bee talk:** The number of honeybees living in a hive can range anywhere from about 10,000 to 80,000 bees per hive. While the colony can produce lots of honey, an individual bee produces only a fraction of a teaspoon during its lifetime.

**Greetings!** With the advent of the telephone in the late 1800s, inventor Alexander Graham Bell wanted people to start their conversations with, "Ahoy!" Another inventor, Thomas Edison, wanted to use "Hello."
