Everybody's Talking

Friendly ram: When riding a bike on back roads, cyclists are often on the alert for barking guard dogs that might run down the lane of a farm property. However, they're not usually concerned about being confronted by a ram. That's what an avid rider from Thunder Bay, Ontario (Canada), found chasing him. Keith Ailey noticed the ram on the side of the road, and he cycled by it. The next thing he knew, the ram was chasing him, grunting and baa-ing while doing so. The ram's name turned out to be Ozzy, and he lives on a family's property in the farming area. His owner says he loves people and is really very friendly.

Lost and found: What would you do if you lost your wallet containing not only personal ID and credit cards, but \$45,000 (USD)? Most people would freak out and think they'd never see that wallet again. But thankfully for a passenger on Vietnam Airlines, the flight attendants found the passenger's wallet on a seat with all that American cash and some Vietnamese currency, after everyone had disembarked from the flight from Hanoi to Da Nang. The attendants took the valuable find to the lost-and-found counter, and they were able to track down the owner and return it. What a relief that must have been!

Unexpected guest: An Australian couple, who invited both farmers and city-dwellers to their country wedding, didn't expect to welcome a brand new baby into the mix. That baby was a calf, born to one of the dairy cows on Jessa and Ben Law's organic apple farm near Portland, Victoria. The couple managed to say their vows before the baby calf made its appearance. The mama cow needed a little help, so Jessa came to the rescue, along with other dairy farmer guests who knew what to do. In the end, they named the new calf Destiny. Jessa's wedding dress, which got muddy during the proceedings, was "absolutely trashed," she said, but it was all completely worth it because the experience was unforgettable.

Local hero: A father from County Cork, Ireland, is glad he has a quick-thinking son. Otherwise, he may not be alive today. Declan Philpott and his 13-year-old son Brian were working on a farm in Katurk when the elder Philpott became trapped between a piece of equipment and a tractor. Soon, Declan passed out because he was unable to breathe. Enter the younger Philpott who, with level-headed calmness, jumped on the tractor and backed it up, freeing his father and allowing him to breathe. Firefighters arriving at the scene say that Brian is a true hero. His father, who is recovering from the ordeal, wholeheartedly agrees.

Did You Know...

Simple stage: If a troupe puts on a play in a black box theatre, the space is a simple, flexible one with few adornments. Usually it is painted black. Generally, black box-type theatres are used for more intimate productions that don't have many technical requirements.

Chef's hat: It's easy to picture a French chef in a kitchen, wearing a tall white hat. Known as a chef's toque, it has 100 pleats. That number is said to represent the 100 methods that can be used to cook an egg.

Braiding techniques: Many different types of braids can be used to adorn hair. Beginners can try the easy three-strand braid and move on to more complicated styles, such as the French braid, the fishtail braid, and the lattice braid.

Red means stop: The ubiquitous stop sign, that red placard with the word "STOP" in the middle, was once coloured yellow in the U.S. With the development of more durable coatings, these signs were changed to red in 1954.

Bringing home the bacon: Male lions, with their amazing manes, are impressive to look at. However, when it comes to bringing food back to the pride, female lions take on 90% of the work.

On the Lighter Side

How does the solar system hold up its pants? With an asteroid belt!

Wise man says, "An apple a day keeps the doctor away... if it's aimed right."

Child: "My teacher can't read my handwriting."
 Parent: "That's bad. Write more clearly from now on."
 Child: "But then she'll find out that I can't spell."

Knock! Knock! *Who's there? Earwig. Earwig who? Earwig go again!*

How does a snake navigate the forest? He uses his GPHiss system.
