What's In Your Glass? with R&R
Alberta Has It All
 "Flatlands and rollin' plains, clear blue skies, prairie rains; a tapestry of colours in the fall. Snow covered mountain tops, wheat fields, canola crops; Alberta has it all." This is from our Alberta provincial anthem. That's just a smidge of it, because if we wrote the whole thing, well, you would miss our monthly wit and wisdom. Okay, maybe just our wit (haha).
 There's no part in the anthem about our liquid assets. We mean of the alcohol type, of course. We make some wicked products in Alberta.

Beer... lots of fabulous beer of every size and type. We're in the spirit of things too with vodka, gin, whisky. Liqueurs, too. How about mead, coolers, fruit wines and pre-mixed cocktails... Albertans make those, too. Come on everybody. Let's celebrate Alberta made products. We've got a ton to salute. Cheers!

Vol. 19 No. 29 July 18, 2022
Everybody's Talking
Home for bees: Bees are important to the environment because they are pollinators. In China, where the native bee population is in danger, a special bee sanctuary exists. It's in the Shennongjia Nature Reserve in the central part of the country, where a steep cliff accommodates about 700 wooden boxes that the bees use as their hives. Beekeepers tending to the boxes must also use them as steps to reach the hives further up. To access the topmost hives, the keepers use ropes. The steep cliff is an ideal spot because it is inaccessible to bears. The area has diverse flora, as well, so the bees have many places to forage for pollen.

Tear-down project: Folks in the town of Blumberg, Germany, had better be sure to pay their contractor, at least if the contractor is someone known as Matija P. While building an apartment block, this fellow had run into problems getting the developer to pay for his work. Instead of taking the issue to court, Matija P. hopped onto a huge excavator and started dismantling the very facade he'd just finished building! In the process, he damaged about 30 apartments that tenants were about to occupy. The contractor stopped his act of destruction when the excavator broke down. Later, he turned himself in to police. He is likely to be fined and will possibly end up in jail.

Not a doctor: A teacher at Shude University of Science and Technology in Taiwan is not just a good teacher, he's good at drawing, too. Zhong Quanbin uses chalk and a ruler to produce amazingly detailed blackboard drawings of parts of the body: eyes, skeletons, muscles, and more. Although not a doctor, nor even interested in becoming one, Zhong Quanbin's skill in art brought him so much attention that he was hired at the university to teach medical students how to draw anatomically correct body parts from different angles. The name of the course he teaches is "Anatomy Illustrations and Drawing Skills."

Exam fraud: Those who want to graduate from high school need to write their own exams. A young couple in Diourbel, Senegal, learned this the hard way. Khadim Mboup dressed up as a woman and attempted to write high school graduation exams on behalf of his girlfriend, Gangué Dioum. Mboup wore a dress, wig, scarf, and earrings, and he put on makeup, too. Unfortunately for the couple, an exam supervisor became suspicious and called the police. Mboup had no choice but to confess to his actions, explaining that he did it to help Dioum, who isn't fluent in English. The couple may now be barred from taking the exam for five years.

SAGITTARIUS (Nov. 23 - Dec. 21)

Right now you may feel that your big Sagittarius heart is out of sync with your thoughts. If you wait a few days, the lack of equilibrium within you may pass. Lucky numbers: 7, 13, 14, 23, 39, 41.

Did You Know...

Common critter: Squirrels seem to be everywhere. Scientists have identified close to 290 species of the critters, and they can be found filling their tummies on just about every continent. They can eat their own body weight during a week.

Higher court: The U.S. Supreme Court may be the highest court in the land, but literally one floor above it is a basketball court. This 1940s workout area has backboards and baskets, which were installed later. It's a high court indeed!

Rockin' eaters: Termites eat wood, and they choose which pieces to eat based on vibrations they detect. One study found that rock music causes vibrations that attract termites to pieces of wood that are easier to eat.

Wig-wearer: Sean Connery shot to fame as the movie character James Bond. The handsome actor wore a wig on screen because in real life he had begun losing his hair at age 21. His hairline continued to recede into his 30s and resulted in early baldness for the actor.

Raining fish: It doesn't rain "cats and dogs," but in May or June of each year, it does rain fish in Yoro, Honduras. Scientists believe the fish are possibly carried into town by heavy rainstorms, flash floods, or water tornadoes.

On the Lighter Side

Jean: "I've been skiing since I was 5 years old."
Ron: "You must be really tired!"

What do you call an elephant in a phone booth? Stuck.

Knock! Knock! Who's there? Freddy. Freddy who? Freddy or not, here I come.

I had to quit my job at the shoe recycling factory. It was sole destroying.

There once was a banker who could no longer ride a bicycle. He lost his balance.
