Everybody's Talking

Pet-friendly hotel: Anyone wishing to go on a holiday in Gloucester, England, who doesn't want to leave a pet canine behind, simply needs to make a reservation at the Tewkesbury Park Hotel. This hotel offers many activities for pet owners, such as playing golf, going for walks, enjoying a game of tennis, or having a spa treatment. Likewise, their canine companions can lounge in the luxurious rooms on their doggie beds, enjoy doggie treats, and wander through the gardens. Not only that, but guests are allowed to take their pet to dinner at the Piano Lounge, where both human and animal patrons can enjoy a meal of their liking.

Nap time: Folks in Hong Kong who have trouble getting a good night's sleep can try to have an extended nap on the Bus Sleeping Tour. This tour, run by Ulu Travel, encourages riders to bring their slippers and pillows so they can curl up to snooze. The double-decker bus then kicks into gear for a five-hour, 76-kilometre (47-mile) ride around the area. The idea originated with Kenneth Kong, Ulu's marketing manager, who knows people who struggle with insomnia. Since many people find they are able to sleep on public transit during their commutes, Kong thought the Bus Sleeping Tour might attract some customers. Tickets are reasonably priced, and riders get a free eye mask and earplugs.

Bad handwriting: While a retired man named Alan Slattery may have been successful at robbing a bank in England, his sloppy handwriting is the reason he was unsuccessful in his first attempt, and his lack of penmanship eventually led to his apprehension by police. Slattery walked into a bank in Eastbourne, East Sussex, and handed a threatening note to a teller, but the teller couldn't read it because of the sloppy writing. Slattery ended up running away without any stolen money. Later, with the note as evidence and video footage from another robbery, police were able to catch and arrest the thief.

Spinning house: A retired man in Srbac, Bosnia, wanted to make sure his wife would always have interesting views of the world. So Vojin Kusic decided to build a new home with a special feature: he designed it to rotate. He studied methods to bring his dream to fruition, and after six years of planning and building, the home was complete. It uses a rotating mechanism that runs on electric motors and employs wheels that were once used on a large transport vehicle. Now, Kusic's wife can choose to have the house rotate as slowly as once every 24 hours, or at the dizzying rate of once every 22 seconds.
