Once again, Alberta has been hit hard by terrible wildfires, after the Insurance Bureau of Canada said we've already had three of the four most costly extreme weather events in Canada's history.

**If you think that we need  
a strong new climate  
plan going forward,  
you're not alone.**

So far there are 47 businesses, 14 non-profit Associations and three faith groups that have signed on in a growing chorus calling for just that at [www.climateplanalberta.ca](http://www.climateplanalberta.ca).

This is a non-partisan initiative and the message is intended for the Alberta Government, regardless of which leader or Party is in power.

We only gather names of willing organizations. If you're an individual wanting to express similar concern, the Calgary Climate Hub does offer an online petition you could sign on to.

**Everybody's Talking**

**Video haven:** Making videos for social media platforms has become quite prevalent, but perhaps nowhere as much as in a small village called Tuls in Chhattisgarh State, India. With a population of about 3,000, more than one-third of Tuls's residents are in the business of making and posting their very own videos. A few years ago, friends Gyanendra Shukla and Jai Verma quit their jobs to make videos. In no time, they were making good money from their endeavours, and many of their neighbours decided to give it a try, too. Videos from the village cover topics like music, education, do-it-yourself information, and even original dramas. Maybe one day a village star will reach the big screen.

**Taking offense:** For a while, motorists in Spain's Balearic Islands may have had a way out of their traffic infractions. There was a man whom they could call and, for a charge, he would take the blame for strangers' violations. That kept their driving records unblemished. Before getting caught, the unnamed man had "helped" almost 100 people. Authorities eventually caught on when they realized the man had admitted to two different driving offenses in one day, but those offenses had happened too far apart for him to have been in both places. They also noticed that his licence had been suspended long ago because he had collected so many demerits for other people's violations.

**Bright road lines:** Those traveling on a one-kilometre (3,281-ft.) stretch of road in the Australian state of Victoria may have thought they'd come upon a science fiction movie set. That's because the route was the test site for a new kind of highway line that glows in the dark. For the markings, an Australian company called Tarmac Linemarking used a photoluminescent coating, which stores the sun's light and then emits it at night. The new substance worked well, with the lines being quite visible for night drivers, making travel safer. The only drawback of the "photo-luminescent delineation treatment," as it's called, is that after overcast days, the lines may lose their "glow."

**Going barefoot:** A young man from Cambridge, England, doesn't like wearing shoes, and he has proven as much by throwing away all of his footwear. Since 2021, George Woodville has been going barefoot all the time, and he does not care what the weather is like, saying his feet get used to being both hot and cold. He's run into a few problems along the way, such as grocery store owners kicking him out due to his dirty feet. However, Woodville is more than willing to dunk his feet into a pail of water to tidy them up for fussy merchants. Some people must love the idea because he has many followers on his multiple social media platforms.

**Quoteable Quotes**

"Only a fool tests the depth of the water with both feet." —Proverb  
"Don't waste a minute not being happy. If one window closes, run to the next window—or break down a door." —Brooke Shields
