## Everybody's Talking

**Aquatic rainfall:** Usually the phrase "raining cats and dogs" is likely a story from someone's imagination. However, people living in the town of Lajamanu in the Australian outback report that it has rained fish in their community four times since 1974. The interesting thing is that Lajamanu, located in the Northern Territory on the edge of the Tanami Desert, is quite dry and is many miles from a lake or the sea. Weather experts think a strong storm, such as a tornado, picked up the fish from a body of water, and then dropped them a long distance away. A fish expert identified the creatures as spangled perch, a freshwater species that is common in Australia.

**Cracked glass:** Everyone has heard of art made of stained glass, but what about creations made by cracking the glass? That is the skill of Natnael Mekuria, an Ethiopia-born artist from Addis Ababa who lives in the U.S. It took a while for this patient fellow to find success. At first, he tended to break his laminated glass canvas instead of simply cracking it. He makes his images, which include portraits of celebrities, by using a hammer to tap a chisel into the glass and by applying different degrees of force. Mekuria has a huge following on social media and lots of interest in his unique style of art.

**Clean streets:** Nobody likes to see garbage on the streets. In Japan, litter collection has even become a contest. Spogomi (which means "sport" and "rubbish") entails teams of three to five people picking up as much garbage as they can within a set time frame. After collecting the garbage, team members must sort it into types, including plastic that can be recycled, metal cans, and items that can be burned. The winner is the team that not only picks up the most trash, but also correctly sorts it. Safety is a priority during the competitions; participants are required to wear gloves and stay away from busy roads. Over 88,000 people have participated since 2008.

**Purple honey:** The colour of honey usually ranges from dark amber to light gold, depending on the kind of flowers bees access to get nectar. But what about purple? In North Carolina, bees are known to produce such a thing, but scientists have not been able to decipher exactly what causes the interesting hue. Purple honey, which is also called blue honey, tends to be found in the Sandhills region, but not all beekeepers or all hives produce it. This treat costs more than the typical colours, and tastes fruity. Some say it even tastes "purple," as though it was made with grapes or some kind of purple berry.

**CAPRICORN**  
(Dec. 21 – Jan. 19)

**AQUARIUS**  
(Jan. 20 – Feb. 18)

 For a couple days in the middle of the week, you may have an opportunity to do a reset for the next month. How do you want to use this energy? Lucky numbers: 2, 4, 12, 18, 20, 43.

**PISCES**

## Did You Know...

**Bachelor brothers:** Wright brothers Wilbur and Orville were so involved in their work of inventing airplanes in the first part of the 20th century that neither of the brothers ever married.

**Carrying device:** Toboggans, used by children and adults alike, were invented by the Indigenous Anishinaabe to carry supplies and game over snow. The name is from the Chippewa *nobugidaban*, meaning "flat" and "drag."

**Newsworthy channel:** To news hounds, the 24-hour channel CNN (Cable News Network) seems to have been around forever. In reality, CNN first broadcast on June 1, 1980, from Atlanta, Georgia.

**Big boss on board:** The captain was the boss of pirate ships that sailed on the high seas over the centuries. Next in line was the quartermaster, who made sure all orders issued by the captain were carried out.

**Sweet bar:** Chocolate candy was a treat for the rich before Milton Hershey first marketed his milk chocolate bar in the U.S. in 1900. Before Hershey Chocolate, he owned a company that made caramels.

## On the Lighter Side

I call my alarm Jim, so I can tell people I hit the Jim every morning. Did you hear about the man who bought a paper shop? It blew away.

Patient: "Doctor, I think I'm a moth."  
Doctor: "You really need to see a psychiatrist."

Patient: "I know, but I was passing by and saw your light on."  
Knock! Knock! *Who's there?* Bean. *Bean who?* Bean here ages. What took you so long?

Want to check out my mind reading machine? I'd love to hear your thoughts.
